

## LIMITS FIRMWARE UPDATE PROCESS ANDROID

### Step 1 – Download Software update to your Android

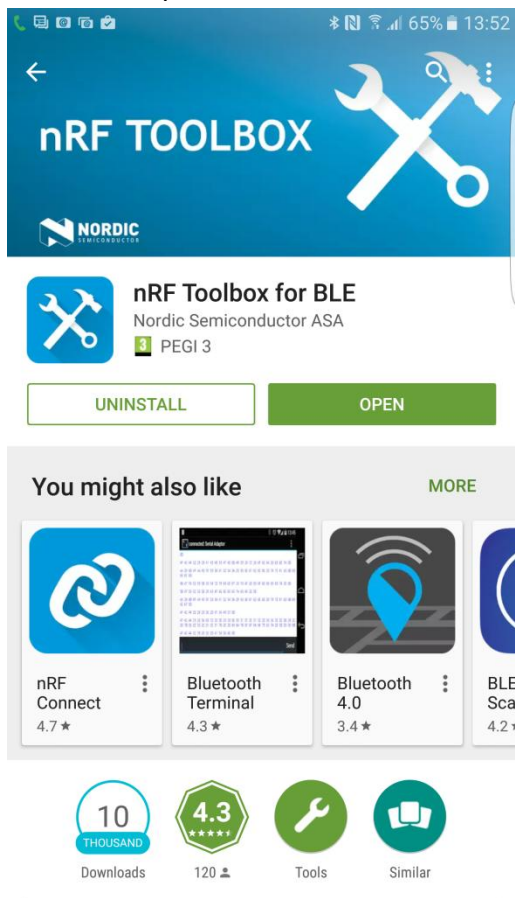

1. Via your Android phone go to LIMITS website and download the latest firmware update located in the support page.
2. Go to Google Play Store.

3. Search for “Nordic nrf toolbox”

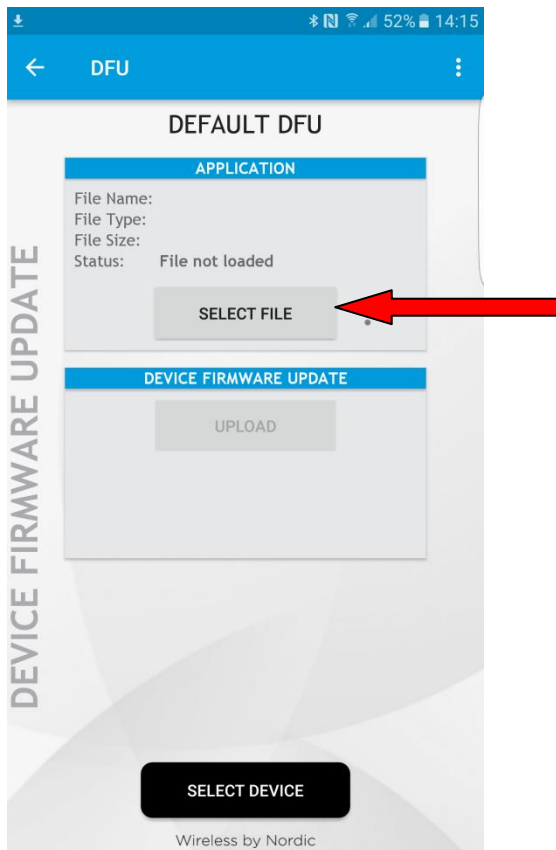

#### 4. Install and open

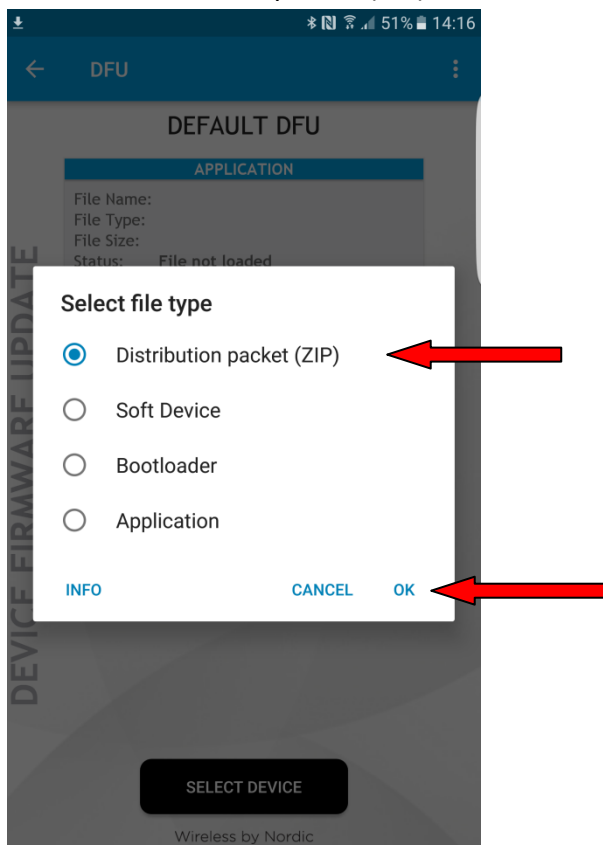

#### 5. Select DFU

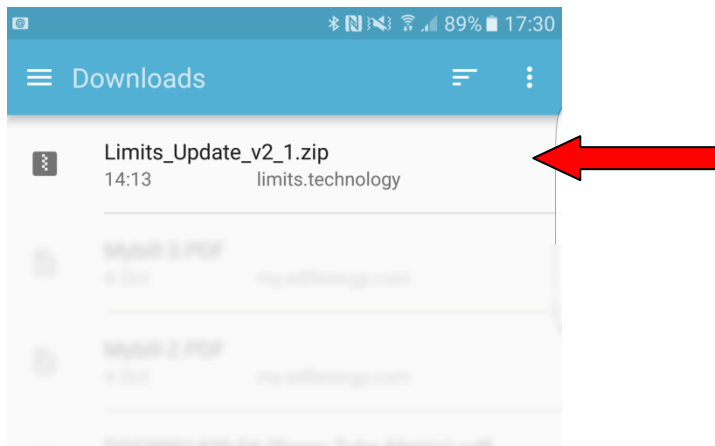

6. Click on "Select File"

7. Ensure "Distribution packet (ZIP)" is selected and click "OK"

8. Go into the “Downloads” folder and select the firmware you downloaded in step 1

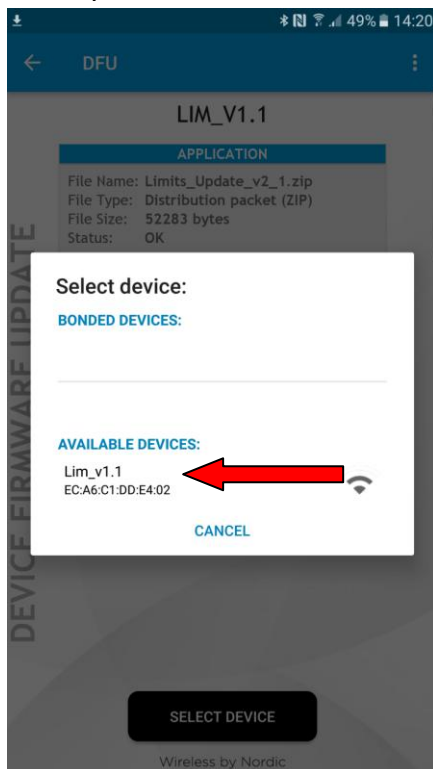

9. Once downloaded switch on your limits (blue LED should come on)

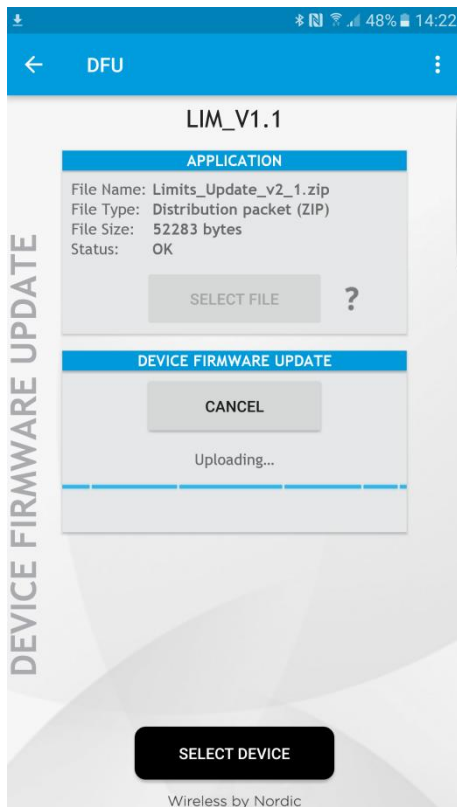

10. Click on “SELECT DEVICE” (On LIMITS the blue LED must be on. If not reset Limits by removing and replacing one battery)

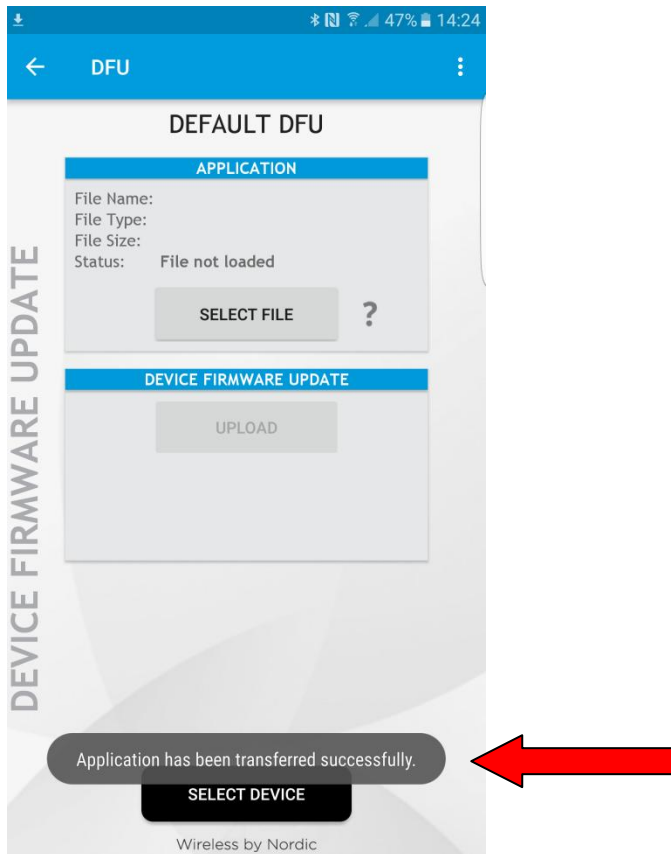

### 11. Select your LIMITS device

### 12. Firmware will start loading onto LIMITS (solid green LED)

13. Loading will complete and green LED will go out

14. Congratulations your LIMITS Firmware is now updated
